

Jorge Lucas Silva de Carvalho

Computer Engineering Undergraduate Student

 Brazil  jubalucas05@gmail.com  <https://jorge-lucas.vercel.app/en>

Summary

Software developer with 2 years of experience developing commercial systems and data engineering solutions.

I have strong knowledge of web and data-related technologies, such as PHP, SQL, and Python. I learn new things easily and am always seeking to expand my knowledge.

Professional Experience

Qualisoft Informática

Software Engineer Intern

 Jun 24 - Oct 25

I worked on the development of web-based financial and business management systems using Laravel/PHP, React, and MySQL.

I deployed systems using AWS cloud services (EC2 and RDS) and configured domains and SSL certificates via Registro.br.

I developed Python scripts to automate the analysis of electronic invoice data, converting batches of XML invoices into organized, formatted Excel spreadsheets and financial dashboards.

Education

Bachelor's Degree in Computer Engineering

Federal Institute of Ceará (IFCE)

Ongoing

 Jan 24 - Present

Computer Network Technician

EEEP Paulo VI

 Jan 21 - Dec 23

Main Projects

Boletos Qualisoft (Feb 25 - Apr 25)

I developed a billing and recurring payment manager that integrates with Banco Inter API to generate payment slips and send them via email or WhatsApp. It includes a webhook to automatically mark payments as settled once the slip is paid, and I also use the WhatsApp API combined with scheduled tasks to send automated payment reminders to customers.

Stack: Laravel/PHP, MySQL, NextJS

AcquaData (Feb 26 - Present)

Real-time IoT management and monitoring for aquaculture, featuring sensors installed in fish or shrimp production tanks that provide real-time water parameter readings and data analysis via printed reports or Excel (.xlsx) files. MQTT architecture for embedded systems.

<https://carcinicultura.jctech.dpdns.org>

Stack: Go/Golang, Svelte, PostgreSQL, MQTT

Retaguarda (July 24 - Sep 25)

Web-based ERP system featuring electronic invoice issuance, transaction tracking, accounts payable and receivable, financial management, inventory control, printed reports, Zebra printer integration, and sales with an integrated POS.

Stack: Laravel/PHP, MySQL, React

Key Skills

PHP Laravel SQL Python Git
HTML CSS JavaScript React
Go TypeScript Docker
